Beginning Sunday Evening, 28th of February, the Moreno Psychodrama Society and the Psychodrama Institute of Melbourne present the **Theatre of Spontaneity** in Collingwood.

From 6:30 – 8:30 p.m on the last Sunday of every month (except January, April & December) we explore, in an intimate setting, personal, local, national and world issues and events through spontaneous and creative methods: Sociodrama, the Living Newspaper, the Magic Shop, Poetry and other techniques. Sometimes a set theme is brought forward by the Director and at other times the theme will emerge from the group. The **Theatre of Spontaneity** was one of the earliest forms of psychodrama to be practised in Europe and the United States of America by Dr. Jacob Moreno, originator of psychodrama and group psychotherapy.
